SUMMARY

Front-end web developer with 15+ years of experience developing websites using HTML, HTML5, CSS, Bootstrap 4, jQuery, and responsive web design/media queries; manual QA testing of web pages, forms, browser testing, and familiar with Agile Scrum methodology.

SKILLS

Industry knowledge

- Web development: HTML, HTML5, CSS, Bootstrap 4, jQuery, responsive web design/media queries
- Content management systems: Wordpress, EpiServer, SDL Tridion, Joomla
- Analytics & SEO: Google Analytics, Google Search Console, Bing Webmaster Tools

Tools & technologies

- Version control: GitHub, BitBucket, TFS (Team Foundation Server)
- Microsoft applications: Outlook, Word, Excel, PowerPoint, Access
- Adobe applications: Photoshop, Fireworks, Dreamweaver
- Google web applications: Docs, Blogger, AdSense, FeedBurner
- Other: Jira, Libsyn podcast management, Brightcove Video, Disqus, Qualtrics, OpenOffice

RELEVANT EXPERIENCE

Front-End Web Developer, Global Online Marketing Team, **Bain & Company**, Boston, MA - 2002-2018

- Contributed to three major Bain.com redesigns (2003, 2011, 2018) with content migration (English and non-English) and HTML and CSS coding, and Q/A testing
- Led the development of a Tridion-based email builder platform that dramatically simplified the content authoring process for hundreds of newsletters over a 5-year period
- Collaborated with Digital Marketing, IT and Content teams to evaluate requirements and recommend technical solutions for Bain's external and internal websites
- Built and Q/A tested microsites, web pages, components, forms, responsive landing pages and infographics according to brand specifications for a variety of stakeholder groups and across geographies using HTML, CSS, JavaScript, jQuery, SDL Tridion and EpiServer
- Completed Agile Scrum training and worked with other remote developers on a Scrum team for 9 months
- Provided ongoing support for more than 30 websites by ensuring consistent cross-browser functionality for external and internal pages/sites, monitoring technical performance and web server availability, and implementing code updates/enhancements
- Implemented and maintained third-party tracking scripts (Google Analytics, DemandBase, Marketo, CrazyEgg, Quantcast, LinkedIn) to gather advanced user data; created monthly and quarterly analytics reports to highlight key insights for business stakeholders
- Led project to migrate Bain's popular *Net Promoter System* podcast series to the Libsyn platform
- Voluntarily designed and developed the internal Bain Community Works website
